

Osage County

8/31/2020

Background Statistics¹

Number of farms: 1,042

Average size: 422 acres

Land in farms: 439,560 acres

Average value of products sold per farm: \$88,676

Average net cash farm income per farm: \$24.257

1: Data from USDA 2017 Census of Agriculture

Estimated Economic Contribution of Agriculture and Agriculture Related Sectors to the Osage County Economy

Methodology

The estimated economic contribution of agriculture and agriculture related sectors was computed using the most recent IMPLAN data available (2018) adjusted for 2020. The IMPLAN modeling system was used to calculate the results of this analysis. The IMPLAN model was constructed so that double counting was avoided. For this report, 25 of the 71 agriculture and agriculture related sectors in Kansas were identified and analyzed to determine their overall contribution to the Osage County economy.

Results

These 25 sectors have a total direct output of approximately **\$168.4 million** and account for **1,098 jobs** in Osage County. Running the model for all 25 sectors simultaneously produces the following results:

Agriculture, Food, and Food Processing Sector Contribution to Overall Osage County Economy					
Contribution Type	Employment	% Employment	Total Value Added	% of Gross Regional Product	Output
Direct Effect	1,098	19%	\$40,000,000	13%	\$168,400,000
Indirect Effect	100	2%	\$6,300,000	2%	\$16,200,000
Induced Effect	43	1%	\$3,200,000	1%	\$5,800,000
Total Effect	1,240	22%	\$49,500,000	16%	\$190,400,000

NOTE: Individual effects may not equal the total effect due to rounding.

As shown in the above table, agriculture, food, and food processing sectors support a total of **1,240 jobs**, or **22%** of the entire workforce in the county. The total final sales of all products in these sectors is approximately **\$190.4 million**.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of Gross Regional Product (GRP). Total value added by the 25 agriculture, food, and food processing sectors is approximately **\$49.5 million**, or **16%** of the GRP.

Top Ten Sectors by Employment

Out of the agriculture and agriculture related sectors, beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming is the top employer with **598 jobs**. This table also illustrates the top ten sectors by total employment, including direct, indirect, and induced effects in Osage County.

Sector	Total Employment
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	598
All other crop farming	132
Grain farming	107
Landscape and horticultural services	73
Oilseed farming	58
Animal, except poultry, slaughtering	55
Truck transportation	22
Veterinary services	21
Support activities for agriculture and forestry	17
Other real estate	13

Top Ten Sectors by Output

This table shows how much revenue is generated in other sectors by having a strong agriculture industry, including direct, indirect, and induced effects. The meat processed from carcasses sector is the top contributor, with approximately **\$51.1 million** to the Osage County economy.

Sector	Total Output
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$51,100,000
Oilseed farming	\$39,400,000
Animal, except poultry, slaughtering	\$39,200,000
Grain farming	\$22,700,000
All other crop farming	\$3,300,000
Landscape and horticultural services	\$3,100,000
Truck transportation	\$3,000,000
Farm machinery and equipment manufacturing	\$2,600,000
Wholesale - Other nondurable goods merchant wholesalers	\$2,200,000
Other real estate	\$1,800,000

All Direct Sectors

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture, food, and food processing sector and the output they contributed to the Osage County economy. IMPLAN sectors are assigned based on North American Industry Classification System (NAICS) codes. Generally, this analysis includes three categories; production, manufacturing/processing, and services. Note that this analysis does not include wholesale or retail sales of final products, or ethanol production.

Sector	Total Output	Total Employment
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$51,104,200.28	597.54
Oilseed farming	\$39,417,531.69	57.58
Animal, except poultry, slaughtering	\$39,226,374.39	55.05
Grain farming	\$22,689,372.10	107.42
All other crop farming	\$3,257,775.91	131.87
Landscape and horticultural services	\$3,092,100.41	72.80
Farm machinery and equipment manufacturing	\$2,635,810.02	7.71
Veterinary services	\$1,709,177.06	20.98
Animal production, except cattle and poultry and eggs	\$1,071,354.46	10.75
Support activities for agriculture and forestry	\$1,030,861.33	17.28
Dairy cattle and milk production	\$678,089.84	1.76
Bread and bakery product, except frozen, manufacturing	\$444,489.21	3.86
Vegetable and melon farming	\$382,705.84	3.00
Frozen cakes and other pastries manufacturing	\$290,352.32	3.87
Other snack food manufacturing	\$286,323.80	0.59
Poultry and egg production	\$242,857.86	0.38
Roasted nuts and peanut butter manufacturing	\$228,250.58	0.58
Other animal food manufacturing	\$179,651.54	0.17
Breweries	\$164,533.74	0.48
Tree nut farming	\$60,277.50	1.29
Commercial logging	\$48,098.75	0.59
Commercial hunting and trapping	\$45,200.23	1.71
Forestry, forest products, and timber tract production	\$35,930.07	0.56
Greenhouse, nursery, and floriculture production	\$33,219.28	0.26
Fruit farming	\$32,845.31	0.28

The following terms are used throughout the results shown in this report:

- **Direct effect:** the contribution from agricultural and food products
- **Indirect effect:** the contribution from farms and agricultural businesses purchasing inputs from supporting industries within the state
- **Induced effect:** the contribution from employees of farms, agricultural businesses, and supporting industries spending their wages on goods and services within the state
- **Value added** = labor income + indirect business taxes + other property type income
- **Gross Regional Product** = final demand of households + government expenditures + capital + exports – imports – institutional sales
- **Output** = intermediate inputs + value added
- **Employment:** full-time/part-time annual average i.e., 1 job lasting 12 months = 2 jobs lasting 6 months each = 3 jobs lasting 4 months each. A job is neither full-time nor part-time.
- Due to confidentiality policies that exist within several agencies from which IMPLAN collects their data, some sectors in some regions may not have all data available.
- Due to confidentiality policies that exist within several agencies from which IMPLAN collects their data, some sectors in some regions may not have all data available.
